

**Name of Issue:**

**The Implementation of NP in agricultural practice.**

**Convenor:** Elzbieta Lenarczyk-Priwiezienczew

**Participants:** Samvel Avetisyan, Alvina Avagyan, Katrin Kotkas, Wieslaw Podyma

**Highlights from the discussion:**

Non model of

1. The implementation in practice in a big scale
2. There are only a few examples of projects in a small scale
3. Steps to take:
  - Building of awareness: farmers, consumers
  - Create a local product using the PGR + tradition
  - Create a market for the special product coming from PGR with the cultural and traditional background
  - To show the existing projects to the farmer: communication and network.
  - Education – starting early (school) + public
  - Financial support for the farmers in the beginning
  - Problem of legal status of seed market (registration of PGR seeds)
  - Close co-operation with gene banks
  - Monitoring of implementation
  - Active participation of NGOs

**Future/Next Step:** Exchanging experience
